| Project Name | Nutrition Assistant Application |

Dinesh Kumar K S:

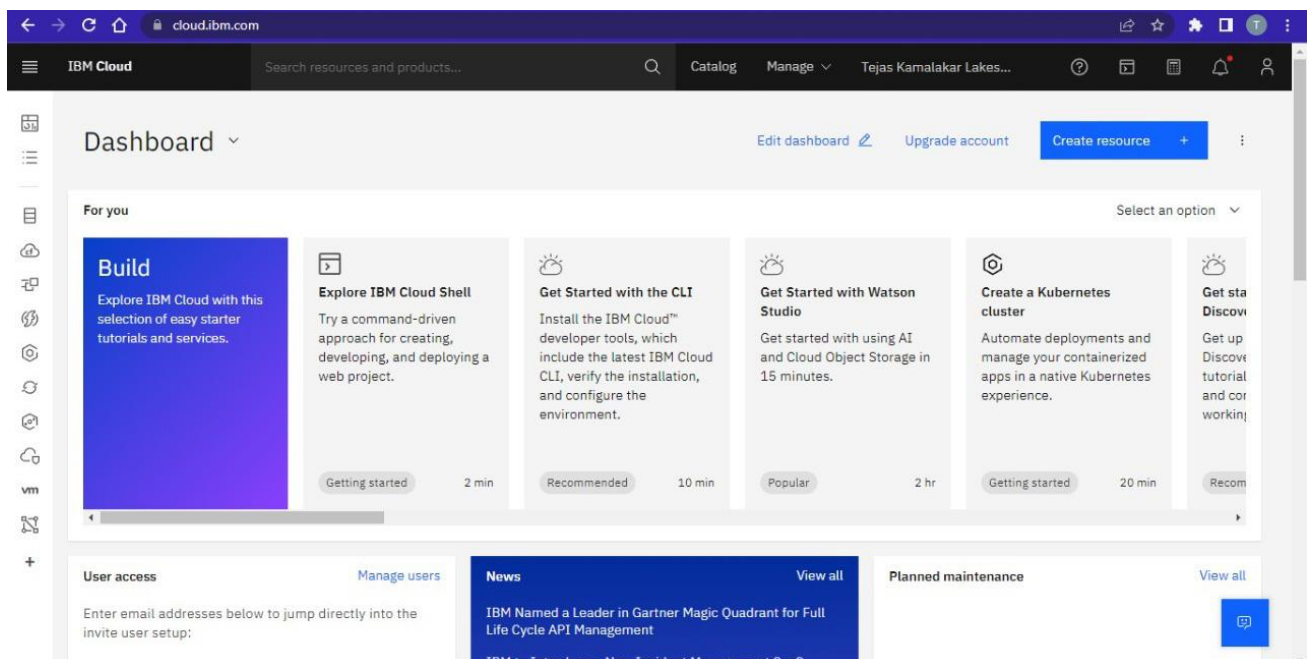

The screenshot displays the IBM Cloud Dashboard interface. At the top, there is a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user profile (DINESH KUMAR K S's ...). Below the navigation bar, the main content area is titled "Dashboard" and includes links for "Edit dashboard", "Upgrade account", and a prominent "Create resource" button. The dashboard is organized into sections. The "For you" section features a horizontal carousel of recommended resources, including "Build", "Explore IBM Cloud Shell", "IBM Log Analysis with LogDNA", "Get Started with the CLI", "Explore DevSecOps on IBM Cloud", and "IBM Cloud". Each resource card provides a brief description, a "Getting started" or "Recommended" button, and an estimated time to complete the task (e.g., 2 min, 5 min, 10 min, 1 min). Below the "For you" section, there are three main panels: "User access" with a "Manage users" link, "News" with a "View all" link, and "Planned maintenance" with a "View all" link. The "News" panel highlights two articles: "IBM Named a Leader in Gartner Magic Quadrant for Full Life Cycle API Management" and "IBM to Introduce a New Incident Management SaaS".
